

# MAKING YOUR VISIT A SUCCESS.

**To help us make your visit a success, please could you observe the following requests:**

- Stay with the group at all times, especially when escorting them from the main theatre to the workshop room as this involves crossing a road.
- There must be at least one teacher in the workshop room at all times. Please be aware that it is distracting for practitioners and students if people come in and out of the studio.
- Teachers are very welcome to participate in the workshop and we would encourage you to actively support the students throughout. Feedback from teachers tells us that they enjoy taking part – students enjoy that too.
- We ask that if you are supporting from the side you refrain from having any loud conversations as this can distract the students or the practitioner.
- Please ensure that mobile phones are on silent during the workshop as they are distracting for the practitioner and the students.
- We cannot allow hot drinks in the studio for health and safety reasons.
- Filming is not permitted under any circumstances during the tour and workshop. Photography is usually permitted, providing it is not intrusive or a distraction for the students. There are some occasions where we have to ask for no photography, but your practitioner will clearly indicate when this applies. It is at the individual practitioners' discretion whether they are happy to be photographed.
- Please be aware that Bankside is a residential area and that serious disturbance which affects our neighbours may result in the cancellation of future bookings. Teachers must supervise their pupils both outside and inside the Globe Theatre, at all times.
- During the tour, students may find themselves outside for up to 45 minutes. It is therefore important for students to arrive with clothes that are suited to the weather.
