Cut here to make a square

How to fold Slye's nose for your mask.

1 Fold a triangle from the **white** side of the square, *not* the red side.

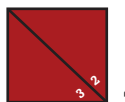

2 When folding, make sure that the black tip of Slye's nose is on the **back** of your triangle.

3

You should now have a folded square like this:

4

Slide one of the new flaps completely over the other.

5

You should now have a cone-like shape with one flat side:

6

Turn the cone over and you will now see Slye's nose!
